

SEEN • HEARD • HELD

FAMILY CONSTELLATIONS WORKSHOP

EXCLUSIVE EVENT!

OCT 23 - 25th
10AM - 5PM

How would it feel to be Seen, Heard and Held?

In early childhood, when we cannot make sense of what is happening within our family system, we create a story through the eyes of a child. That story often becomes the unconscious pattern we carry into adulthood. Yet what helped us survive as children rarely serves us as adults.

How do we change this?

Family Constellations offers the opportunity to see - and feel - the deeper story through the eyes of an adult. As hidden family dynamics come into view, new possibilities emerge.

What once felt fixed can begin to soften. What was carried unconsciously can finally be released.

With the experienced guidance of international facilitator Bill Mannle, you will be supported in a safe, compassionate environment as you let go of what no longer belongs to you and reconnect with yourself. This is an invitation to return more fully to life - to experience what it means **to be truly Seen, Heard and Held.**
